

AAMA Self-study Courses

Product	Item	Price	Quantity	Total
○ Accounts Receivable and Collection; 5 CEUs (adm) <i>Learn techniques and procedures to help you develop and implement an effective, efficient collection system for your medical office.</i>	93	\$20 members \$40 nonmembers		
○ Cancer Risk Reduction; 10 CEUs (2 gen, 8 clin) <i>Research suggests that the majority of cancer incidence can be attributed to lifestyle and environmental factors. Explore the many ways to reduce overall cancer risk.</i>	582	\$40 members \$80 nonmembers		
○ Cardiovascular Nutrition and Fitness; 10 CEUs (2 gen, 8 clin) <i>Cardiovascular disease is the leading cause of death in the United States. Though heart disease can be treated, it is safer and cheaper to prevent it through proper diet and exercise.</i>	580	\$40 members \$80 nonmembers		
○ Childhood and Adolescent Nutrition; 8 CEUs (5 gen, 3 clin) <i>The nutritional health of our nation's children is the foundation of our nation's future health. Learn about the nutritional problems facing children and teenagers, as well as the tools required to deal with them.</i>	581	\$32 members \$64 nonmembers		
○ Herbal Supplements; 10 CEUs (6 gen, 4 clin) <i>In recent years over \$4 billion were spent on herbal supplements. There are still major challenges to overcome if herbal medicine is to be successfully integrated with conventional medicine. Health care practitioners need to be informed of the possible risks and interactions that may occur when these supplements are used with prescription and over-the-counter medications, and how to advise consumers on the safe and appropriate use of herbal supplements.</i>	538	\$40 members \$80 nonmembers		
○ Introduction to Microbiology; 15 CEUs (clin) <i>Get an overview of microbiology, including information on bacteria, yeast, protozoa, viruses, and some intermediate microorganisms. Learn about the diagnosis, treatment, control, and prevention of infectious disease. Discover more about immunology, which examines how the body reacts to diseases; and epidemiology, which studies the distribution, spread, and control of disease.</i>	86	\$60 members \$120 nonmembers		
○ Maternal and Infant Nutrition; 10 CEUs (8 gen, 2 clin) <i>Breast-feeding provides the most substantial nourishment for a healthy newborn. Find out about the issues regarding breast-feeding and obtain insight into providing optimal nutritional care to families with infants.</i>	579	\$40 members \$80 nonmembers		
○ Microorganisms and Human Disease; 12 CEUs (clin) <i>This follow-up publication to Introduction to Microbiology provides more in-depth information about the pathophysiology of microorganism-induced human diseases in the five major systems affected, which include respiratory, urinary, reproductive, digestive, and integumentary.</i>	537	\$48 members \$96 nonmembers		
○ Nutrition for Women—Part 1; 10 CEUs (6 gen, 2 adm, 2 clin) <i>Learn about factors that affect the nutritional needs of the pregnant woman: physiological changes associated with pregnancy, prepregnancy nutritional status, and preexisting diseases and conditions.</i>	91	\$40 members \$80 nonmembers		
○ Nutrition for Women—Part 2; 10 CEUs (5 gen, 5 clin) <i>Study issues relating to weight control, heart disease, breast cancer, osteoporosis, aging, and menopause. Also evaluate diets and meal planning skills to help you assist patients.</i>	92	\$40 members \$80 nonmembers		
○ Nutrition for Women—Part 3; 10 CEUs (5 gen, 5 clin) <i>The average woman in the U.S. will live 30 to 35 years beyond the onset of menopause. Get an in-depth look at the relationship between diet and disease risk. Discover the steps women should take to maximize longevity and minimize premature disease, disability, and dysfunction.</i>	578	\$40 members \$80 nonmembers		

Product	Item	Price	Quantity	Total
<input type="radio"/> Osteoporosis Prevention & Treatment; 10 CEUs (5 gen, 5 clin) <i>Up to one-third of women will be diagnosed with osteoporosis, with complications that are painful, disfiguring, and debilitating. Surprisingly, men and younger women, particularly vegetarians, athletes, and chronic dieters, are also at risk.</i>	85	\$40 members \$80 nonmembers		
<input type="radio"/> Phlebotomy: Drawing from the Basics; 20 CEUs (clin) <i>Learn basic phlebotomy procedures and the legal and ethical issues common to the practice.</i>	536	\$80 members \$160 nonmembers		
<input type="radio"/> Preventing Pediatric Obesity; 6 CEUs (4 gen, 2 clin) <i>Childhood obesity rates in the U.S. have nearly tripled in the past 30 years. Of all age groups, preschool children are the most at risk, and thus the most important to educate. Learn to set them on the right path to a healthy life.</i>	575	\$24 members \$48 nonmembers		
<input type="radio"/> Treating Eating Disorders; 8 CEUs (3 gen, 5 clin) <i>Eating disorders are psychologically and financially devastating, but above all, they are life threatening. Effective treatment involves medical, nutritional, and psychological care to the individual. Understand the severity of these diseases and learn to recognize the symptoms.</i>	576	\$32 members \$64 nonmembers		
<input type="radio"/> Weight Control & Eating Disorders; 8 CEUs (4 gen, 4 clin) <i>Americans are more overweight than ever. Eating disorders remain a vexing problem, especially among teenagers. This course includes scientific information nutrition professionals need on weight control, obesity, fad diets, eating disorders, and diet drugs.</i>	82	\$32 members \$64 nonmembers		
<input type="radio"/> Health Care Law and Ethics (Textbook and Workbook); 50 CEUs (30 gen, 10 adm, 10 clin) <i>Find out about certification, confidentiality and consent, professional liability, medical records, ethics, employment law (including ADA), sexual harassment, consumer protection law, bioethical issues, chain of custody, law cases, and more.</i>	119	\$100 members \$135 nonmembers
