52

licensed nurse or physician.

- 53 (i) A delegation of medication administration or other nursing tasks to a 54 certified medical assistant from a licensed nurse shall be carried out in accordance with the 55 rules for nursing delegation adopted by the board of nursing.
 - (ii) The board of nursing may promulgate rules related to the administration of vaccines and other tasks that may be delegated by a licensed nurse to certified medical assistants under this chapter.
- 59 (i) A delegation of medication administration or other tasks to a 60 certified medical assistant from a physician must be carried out in accordance with the rules 61 adopted by the board of medical examiners.
 - (ii) The board of medical examiners may promulgate rules related to the administration of vaccines and other tasks that may be delegated by a physician to certified medical assistants registered by the department under this chapter.
 - **(D)** A certified **medical assistant** may only administer vaccines after:
 - (i) An individual is assessed by a physician or licensed nurse; and
 - (ii) The physician or licensed nurse makes a determination that it is appropriate for the individual to receive the immunization administered by a certified medical assistant.
 - (2) In exercising the authority to administer medications pursuant to a physician's or licensed nurse's delegation, a certified medical assistant may administer only those medications that have been ordered by an authorized healthcare provider and are in single-dose, appropriately labelled, ready-toadminister packaging, including the following categories:
 - (A) Intramuscular or subcutaneous medications;
 - (B) Oral, sublingual, and buccal medication;
 - (C) Topical creams and ointments;
 - (D) Saline solutions for simple wound irrigation;
- 77 (E) Eye drops;

- 78 (F) Inhalation treatments, either metered hand-held inhalants or unit dose nebulizers;
 - (G) Ear medications; or
 - (H) Nasal medications.
 - (3) A certified medical assistant may engage in other patient care activities as delegated by a physician or licensed nurse, including, but not limited to, vital sign measurement, phlebotomy, simple dressing changes, collection of patient's medical history data, or preparation of patient care areas. A licensed nurse shall not delegate patient care activities that require nursing judgment in altering care delivery based on the needs of the individual. A physician shall not delegate patient care activities that constitutes the practice of medicine or requires diagnostic analysis.
- 87 (j) A physician or licensed nurse shall not delegate to a certified medical assistant the administration of:
- 88 (1) Intravenous medications;
- 89 (2) Blood or blood products;
 - (3) Investigational drugs;
 - (4) Chemotherapy drugs;
- 91 92 (5) Drugs given through an implanted device;
- (6) Insulin; 93
- 94 (7) Controlled substances;
- 95 (8) Anesthetic agents:
- (9) Medications used for cosmetic procedures; 96
- 97 (10) A medication requiring calculation of dosage;
 - (11) Contrast media;
- 99 (12) Allergy antigen agents; or
- 100 (13) A medication requiring patient monitoring and assessment of response when a licensed nurse or 101 physician is not immediately available to provide monitoring or assessment.
- 102 (k) This section does not apply to personnel employed by a physician performing duties in settings 103 other than in an ambulatory outpatient hospital clinic.
